Warm Greetings from Girijabai Sail Institute of Technology, Karwar.

Today an invited talk was conducted in the college on the topic " Industrial Automation" by Prof Ajit Salunke who is the head of the department of Mechanical Engineering at Don Bosco College of Engineering, Margao, Goa.

He spoke on the various applications of Industrial Automation in manufacturing Industries and cited quite few examples like IFB, Cipla which have automated most of their processes. He dealt with low cost automation, SCADA and PLC. He shared his experience with the students and narrated about industrial visits in parts of Goa and Karnataka.

The programme was presided by the Managing Trustee of Girijabai Sail Memorial Trust Mr Madhukar Phal. Principal GSIT Karwar D. Suresh D. Mane in his welcome speech asked the students to be more proactive and learn lessons from experts in industry and academia to be industry ready.

The entire event was conducted under the mechanical engineering department headed by Prof Shashank Divgi. Final and Pre final year students of both Mechanical Engineering and Electronics and Communication Engineering attended the programme.
